Super Ram

Most people define a super hero as someone with "superhuman" powers. As a society, we tend to categorize those superhuman powers as physical strengths. For example, Thor must be physically strong to carry around that hammer; Iron man must have the physical endurance and durability to persevere. But do these strengths really have to be limited to physical ones?

The theme for the 2016 yearbook is **SUPER RAM**. Why? Because to be a Ram you must have "superhuman" powers. But don't worry, they're not limited to physical strengths. After polling the entire BHS student body, the Publications staff discovered that Super Rams sometimes possess superhuman powers in the form of physical strength, mental strength, and emotional strength, to name a few.

What's the conclusion? To be a super hero someone doesn't need a special body suit, cool car, or even the ability to fly. One just needs determination and will to make a difference. I guess a cape wouldn't hurt though.

Why is BADIN SUPER?

Badin is super to me because when I'm having a bad day, there is always someone around here who can help me find the good in it!
-Angela Breetz

The Badin community of students, faculty, staff and alumni are what makes Badin super! These are the people all around us that bring out our superhero that is inside us waiting to be discovered!
-Jackie Noelker

Badin is super to me because it gave me a place to be great. It allowed me to grow as a person. It pushed me to be better making me a better person. Everyone wants to be the best for each other.
-Fred Bradbury

Badin is super because of its amazing teachers (like Mrs. Allen)!
-Dominic Scalf

Badin is super because we all have the ability to express ourselves and be creative while we learn at the same time!
-Laura Lamemayer

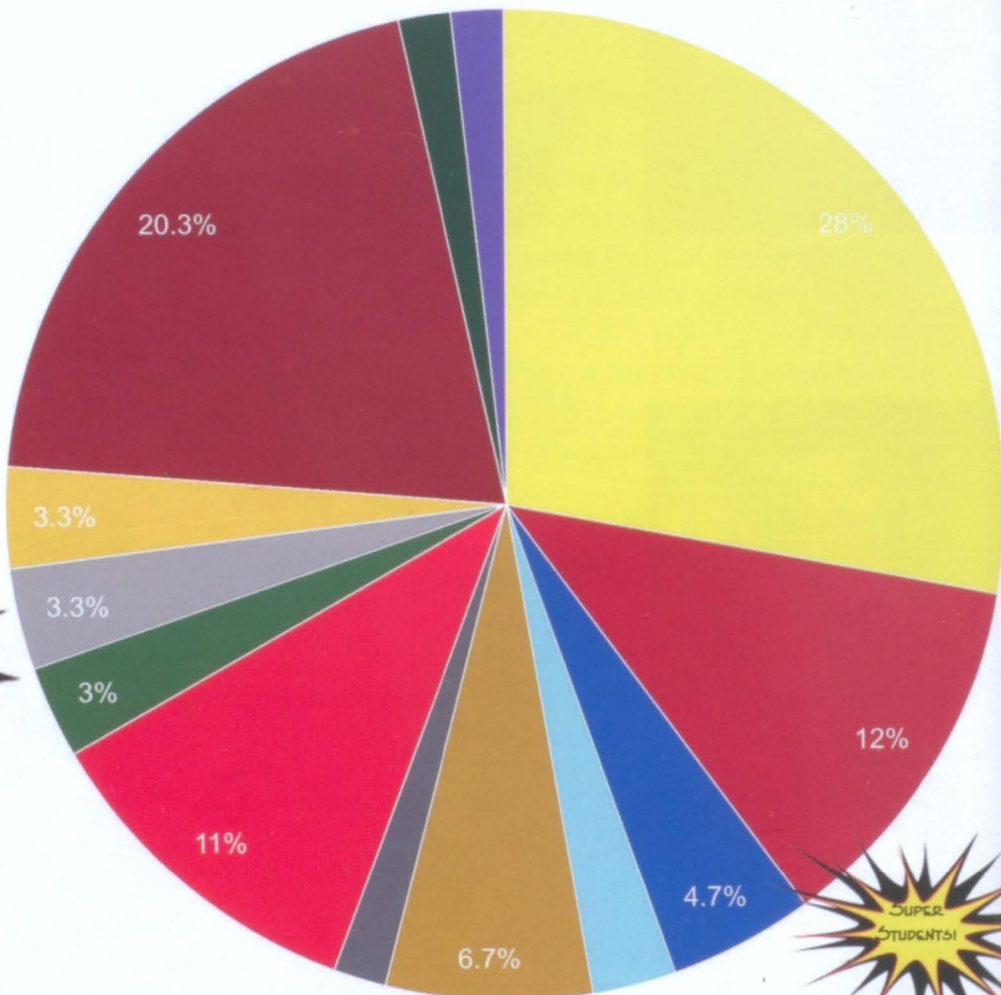

Badin is super to me because we are all one big family, no matter what happens we are all there for each other, that's what I love about it. And of course the food too!
-KK Meyers

What makes you a hero?

So, what makes me a superhero? It has occurred to me that perhaps this was purely a satiracle question, but straying on the side of caution, I put some thought into this. What makes me a superhero is my predisposition to see the good in people. Everyone is equally deserving of respect, and I actively speak out for their deservance. We are all people in the end, and we all deserve a good, happy life. - Senior Evan Kurtz

Popping Pieces: The Badin Art Department has taken massive strides this year, and it's seen around the community

By: Mike Rand

Badin is a school of brightness and prosperity. This is made possible by the Badin Art Department. "Mrs. McDulin and I try to exhibit as many student works as possible," said art teacher Mrs. Daniels. Armed with two talented teachers in Mrs. Daniels and Mrs. McDulin, the art department has scattered master pieces around the school hand crafted and imaged by Badin students themselves.

This year the art program has taken massive strides in becoming bigger and better. Art teacher Mrs. Daniels testified that, "Mrs. McDulin and I are a great team. This is imperative to make any department move in a forward thinking direction. We share a passion for art and a love for teaching. We are both artists and often inspired by our students."

Mrs. McDulin has been taken into the Badin family lovingly. In her first year she has helped Mrs. Daniels bring the art program into new heights.

This has shown as the art program was gifted the opportunity to have a presentation shown at the Fitton center. They picked the best of the best and it showed as they had a large turn out. "The exhibition was well attended at the Fitton Center for Creative Arts. We highlighted student works which showed an understanding of the elements and principles of art," Mrs. Daniels said. This was one of the first times Badin students showed their talents outside of the BHS hallways. "These student pieces showed perseverance, exploration of media and theme," Daniels added.

Wherever you look around the halls of Badin, art is everywhere. It brightens everyone's day. To think that the Badin Art Department has come this far is amazing. The great Pablo Picasso said it best: "The meaning of life is to find your gift. The purpose of life is to give that gift away." And that is exactly what the art program has accomplished.

Take A Bow... And Arrow

By: Jack Riegert

This year, Badin cannot be more proud of the archery team. The scores of the team itself are an excellent demonstration of the skill and determination to win of not only the archers, but also the coaches, and the winning spirit all Badin students possess. Under the leadership of Mary Dwire and June Haynes, students achieved success with many awards and achievements.

All of these students take pride in being a Ram, and Badin takes pride in their talents as archers. All of us couldn't be more proud of them. These student athletes are the essence of the Badin spirit; working hard both in and out of the classroom. Their talents are priceless and the hard work and dedication shown by these students can't go without recognition. The tradition will be passed down, class by class, and the winning drive will continue its legacy at Badin.

This past season the Rams went to the state tournament to return with a score of 2983. The top 5 archers: Zach Simmons, Margo Hood, Caity Fitzgerald, Kaylee Dwire, Sarah Smith, scored in the top 22. The highest score you can shoot individually is a 300. Zach Simmons came very close with a high score of 273. Junior Zach Simmons, along with senior Kaylee Dwire, also took 1st place at the Sacred Heart Archery Tournament for high school students.
